April 2020 Webinars

Legrand Product Update

This seminar will discuss the Legrand Data Infrastructure product line. Legrand product presentations will include infrastructure solutions for both the telecommunications room and the data center, the complete copper product line, as well as the complete fiber line with a brief introduction to the new Infinium Quantum™ grade performance.

Schedule:
   April 8, 2020 11:00 AM EDT
   April 15, 2020 4:00 PM EDT
   April 22, 2020 4:00 PM EDT
   April 29, 2020 11:00 AM EDT

Data Center Technologies (1 BICSI CEC)

This seminar will cover the basic principles found in construction and administration of data centers from the perspective of architecture, physical support, heat mitigation, copper cabling, and fiber cabling. These concepts are discussed and shown how a decision on one affects another.

Schedule:
   April 16, 2020 11:00 AM EDT
   April 23, 2020 11:00 AM EDT

Register at: https://attendee.gotowebinar.com/rt/7777633399579954187

Transceivers, DAC & AOC (1 BICSI CEC)

This seminar is designed to provide an overview of third-party transceivers, direct attach cables, and active optical cables. During this session, we will be discussing connection options, what differentiates them and what to look for to increase uptime in the data center.   We will also discuss interoperability between transceivers from different manufacturers.

Schedule:
   April 9, 2020 4:00 PM EDT
   April 21, 2020 11:00 AM EDT

Register at: https://attendee.gotowebinar.com/rt/8150627326140409099

Infrastructure for Edge (1 BICSI CEC)

This seminar will discuss the need for some information to move away from distant data centers closer to the edge device requiring the information. Factors such as latency network congestion are presented as the need to bring data center technologies to locations not commonly considered data centers.

Schedule:
   April 13, 2020 11:00 AM EDT
   April 30, 2020 4:00 PM EDT

Register at: https://attendee.gotowebinar.com/rt/8565703960742373643

Digital Building Technologies (1 BICSI CEC)

This seminar will discuss the changing landscape that new technologies within a building are bringing about. What was once a telephone and computer connection is morphing into many more types of data connections. This coupled with new technologies for powering devices is presenting new business opportunities for the low voltage contractor.

Schedule:
   April 7, 2020 4:00 PM EDT
   April 28, 2020 4:00 PM EDT
